

QUALITY

Our company

Our main activities are the production and marketing of prototypes, Low Volume manufacturing, Casting Models, Models and Tools, made by using Additive Manufacturing, Vacuum Casting and Machining technologies. We support our customers from the project development to the selection of the most realistic materials and finishing.

Our goal is to satisfy our customers, suppliers and employees. We believe that excellence is the way to have an honest and sustained growth, following regulations and laws.

Our values

Our human team, based on integrity, honesty and respect, is our most important asset.

Our team

In our organization, every idea counts and every person has a point. The main values of the company are our team members and the relationship between us, our customers and suppliers. The company encourages continuous training to improve the skills of each one of us.

Objective

We want our customers to perceive us as a trustworthy collaborator. Optimizing their productivity and profitability is one of our main targets. Continuous improvement is always present in our work system.

Profit

Generating profit allows us to maintain our values and improve our organization.

Project

We want the Ineo project to generate enthusiasm in our human team. Therefore, we improve our personal development, encouraging individual initiatives and making our project more dynamic and efficient. Thus, we generate trust and loyalty to our customers.
